Notice to The Public!

December 23, 1922.

We, the undersigned, have seen W. A. Capshaw's prices on Shuttle blocks. We have also seen invoice on car load shipped September 19th, showing total value of car. After seeing this data we are in a position to inform the public that he is not making an unreasonable profit, and in our opinion he is paying a fair price for timber.

Above is a list of business men who have looked over my prices and they certify that I am giving the people a square deal.

It has been reported that J. D. Capshaw & Sons, of Samson, paid more for timber than I do. This is a mistake. I pay the same price for timber that they do.

If the people do not put their timber in, in sufficient quantities-to keep the mill running, I will have to move the mill to another point.
